# Subject Index to Volume 14

(E) = Editorial; (LE) = Letters to Editor

Abstracts, American Society for Clinical Nutrition, 4th annual meeting, 238
Adipose tissue fatty acids, effect of dietary fat on, 280
Adolescent girls, physical activity appraised by motion picture sampling, 211
Adults, normal, magnesium requirements of, 342
American Society for Clinical Nutrition
  abstracts of 4th annual meeting, 238
  program of 4th annual meeting, 237
Amino acid loading, biochemical changes during, 291
Amino acids
  levels in kwashiorkor, 313, 320
  method for estimating, 313, 320
Aminoaciduria after dietary loading, 163
Ammonia metabolism and rat liver and kidney enzymes, 291
Ammonium acetate administration, effect on dietary protein deficiency, 302
Anemia, pyridoxine-responsive, and megaloblastic erythropoiesis, 137
ASCN News, 237
Ascorbic acid, nitrate and methemoglobin, 52

Bantu
  beer, availability of iron in, 47
  subjects, iron overload in, 47
B-complex vitamin titers and hepatic disease, 1
Bedouins, nutrition in Negev Desert, 37
Beer, Bantu, iron content of, 47
Biscuits, survival, nutritional quality of (LE), 180
Blood
  chemistry in kwashiorkor, 331
  cholesterol values in Bedouins, 37
  glucose tolerance in obesity, 128
  sugar levels in obesity, 128
Bone density as index of mineral status in children, 91
Book reviews
  Cooper, L. F., Barber, E. M., Mitchell, H. S., Rynbergen, H. J. and Greene, J. C. Nutrition in Health and Disease (14th ed.), 310
  May, J. M. The Ecology of Malnutrition in Five Countries of Eastern and Central Europe (East Germany, Poland, Yugoslavia, Albania, Greece), 182
Brilliant blue and methylcellulose, dye markers for separation of stool periods, 109

Calcium
  intake, influence on magnesium balance, 367
  metabolism in children, effects of high dietary calcium and phosphorus on, 76
Calorie-protein malnutrition
  see also Kwashiorkor
  protein-rich foods in, 7
Cartoons, dietary, in creating patient good will (LE), 123
Child, preschool, protection program, 63, 65
Children
  bone density and skeletal maturation as indexes of mineral status in, 91
  effects of high dietary calcium and phosphorus on calcium, phosphorus, nitrogen and fat metabolism in, 76
  goiter in, 253
Cholesterol
  blood, in Bedouins, 37
  levels in obese women, 128
  total serum, correlation between dietary linoleate and, 193
Chorionic gonadotropin hormone in obesity, 133
Conference notes on preschool child protection program, 65
Copper metabolism in normal subjects, 224
Cottonseed oil emulsion (Infonutrol), long-term tolerance study of, 28
$Co^{57}$-vitamin $B_{12}$ excretion and plasma turnover, 156
Crackers, survival, nutritional quality of (LE), 180

DEAE chromatography in determining folic acid active compounds in foods, 205
Diet
  and nutrition conferences, special report on, 62
  nutritional value in New Guinea, 13
  of Bedouins, analytic composition, 37
  protein-deficient, effect on liver and kidney enzymes, 302
  therapy, current practices, research and education in, 233
Dietary calcium and phosphate, effects in children, 76
Dietary carbohydrate
  effect on serum and adipose tissue fatty acids, 280
  effects of changes on coronary heart disease, 169
Dietary cartoons in creating patient good will (LE), 123
Dietary essential fatty acids, effects of changes on coronary heart disease, 169
Dietary fats
  effect on serum and adipose tissue fatty acids, 280
  unsaturated (E), 125
Dietary intake of linoleate in infants assessed by serum fatty acid analysis, 70
Dietary linoleate, correlation between total serum cholesterol and, 193
Dietary loading, aminoaciduria after, 163
Dietary protein deficiency and repletion, response of rat liver and kidney enzymes to, 302
Dietary protein, effect on serum and adipose tissue fatty acids, 280

Dietary sources of iodine, 186
Dietitian and physician (E), 183
Diets, infant, evaluation of, 202
Dye markers, fecal, in metabolic balance studies, 109

Editorials
  The physician and the dietitian, 183
  Unsaturated dietary fats, 125
Education in diet therapy, 233
EFA requirements of infants, 70
Enzyme assays in dietary protein deficiency and repletion, 302
Enzyme studies of rat liver and kidney, 291, 302
Enzymes and ammonia metabolism, 291
Erythropoiesis, megaloblastic, and pyridoxine-responsive erythropoiesis, 137
Excretory patterns on different magnesium intakes, 363

Fat
  emulsions for intravenous nutrition, study of long-term tolerance, 28
  metabolism in children, effects of high dietary calcium and phosphorus, 76
Fats, unsaturated dietary (E), 125
Fatty acid
  analysis in assessing dietary intake of linoleate in infants, 70
  metabolism, effect of differences in dietary fat on, 280
  requirements of infants and assessment of dietary linoleate by serum fatty acid analysis, 70
Fatty acids
  essential, and coronary heart disease, 169
  in evaporated and human milk, 83
  serum, effect of dietary fat on, 280
Fecal dye markers in metabolic balance studies, 109
Fish flour, nutritive value in kwashiorkor, 147
Folic acid active compounds in foods, distribution of, 205
Food
  habits of Bedouins, 37
  intake per capita among Bedouins, 37
  supplies, changes in retail market, in relation to coronary heart disease, 169
Foods
  distribution of folic acid active compounds in, 205
  magnesium content of, 376
  protein-rich, evaluation in caloric-protein malnutrition, 7

Girls, obese and nonobese adolescent, physical activity appraised by motion picture sampling, 211
Glucose tolerance in obesity, 128
L-Glutamine, effect on dietary protein deficiency, 302
Goiter
  and iodine nutriture, 253
  in children, 253
Gonadotropin, chorionic, in obesity, 133

Heart disease
  coronary, effect of changes in dietary carbohydrates on, 169
  effect of changes in dietary essential fatty acids on, 169
  effect of changes in retail food supplies on, 169
Height and weight of Bedouins, 37
Hepatic disease and B-complex vitamin titers, 1
Hormone, chorionic gonadotropin, in obesity, 133
Hyperammoniemia, biochemical changes during, 291

ICNND survey of iodine nutriture in goitrous and nongoitrous areas, 253
Infant diets, evaluation of, 202
Infants
  breast-fed, serum lipids in, 83
  EFA requirements of, 70
  fed evaporated milk, serum lipids in, 83
Iodine
  dietary sources of, 186
  excretion patterns, relation to prevalence of goiter, 253
  nutriture and goiter, 253
  radioactive, thyroidal uptake of, 253
Iron
  content of Bantu beer, 47
  overload in Bantu subjects, 47

Kidney enzymes, rat
  and ammonia metabolism, 291
  response to dietary protein deficiency and repletion during ammonium acetate and L-glutamine administration, 302
  response to massive doses of nitrogenous substances, 291
Kwashiorkor
  blood chemistry in, 331
  nitrogen balance in, 331
  nutritive value of fish flour in treatment, 147
  peanut and milk protein blends in treatment of, 331
  serum amino acids in, 313, 320
  serum vitamin A in, 331

Lactation, serum proteins in, 269
Letters to the editor
  Browe, J. H. Nutritional quality of survival biscuits and crackers, 180
  Dickinson, E. P. Dietary cartoons in creating patient good will, 123
  Hoyt, R. S. Dietary cartoons in creating patient good will, 123
  Wissbaum, A. M. Follow-up studies on obesity, 179
Linoleate intake
  estimated by serum lipid analysis, 193
  in infants assessed by serum fatty acid analysis, 70
Lipid analysis, serum, linoleate intake estimated by, 193
Lipid levels
  in infants, 83
  in obese women, 128
Lipids, serum, in breast-fed infants and in infants fed evaporated milk, 83
Liver B-complex vitamin titers, effect of hepatic disease on, 1

Liver enzymes, rat
and ammonia metabolism, 291
response to dietary protein deficiency and repletion, 302
response to massive doses of nitrogenous substances, 291

Magnesium
absorption and excretion, 366
balance
influence of calcium intake on, 367
influence of phytates on, 373
influence of protein on, 374
influence of vitamin D on, 375
content of foods, 376
loss in sweat, 345
deficiency, detection of, 381
excretory patterns on different intake levels, 363
factors affecting daily requirement of, 344
metabolism, sex difference in, 364
requirements of normal adults, 342
Malnutrition
calorie-protein, protein-rich foods in, 7
protein, use of fish flour in preventing, 147
Megaloblastic erythropoiesis and pyridoxine-responsive erythropoiesis, 137
Metabolic balance studies, fecal dye markers in, 109
Methemoglobin, nitrate and ascorbic acid, 52
Methylcellulose and brilliant blue, dye markers for separation of stool periods, 109
Milk
evaporated and human, fatty acids and lipid-soluble vitamins in, 83
human or evaporated, serum lipids in infants fed, 83
protein and peanut protein blends in treatment of kwashiorkor, 331
Mineral status in children, bone density and skeletal maturation as indexes, 91
Motion picture sampling, physical activity of obese and nonobese adolescents appraised by, 211
Myocardial infarction in Bedouins, 37

New Guinea, nutrition studies in, 13
Nitrate
ascorbic acid and methemoglobin, 52
content of turnip greens, relation of ascorbic acid to, 52
Nitrogen
balance studies in New Guinea, 13
balances in kwashiorkor, 331
metabolism, effects of high dietary calcium and phosphorus on, 76
Nutrition
and diet conferences, special report on, 62
in children, 91
intravenous, long-term tolerance study of two fat emulsions for, 28
of Bedouins in Negev Desert, 37
studies in New Guinea, 13
survey of iodine nutriture in goitrous and nongoitrous areas, 253
Nutrition News, 62, 181, 311
Nutritional disease, ecological factors in, 112
Nutriture, iodine, and goiter, 253

Obesity
and physical activity, 211
blood sugar levels and glucose tolerance in, 128
chorionic gonadotropin hormone in, 133
follow-up studies on (LE), 179
lipid, cholesterol and triglyceride levels in, 128
Occidental diet, magnesium content of, 379
Ochromonas danica, reagent for assessment of thiamine status, 197
Orient, magnesium intake in, 380
Osteoporosis, involutional, factors in genesis of, 98

Peanut protein and milk protein blends in treatment of kwashiorkor, 331
Phosphorus metabolism in children, effects of high dietary calcium and phosphorus on, 76
Physical activity and obesity, appraisal by motion picture sampling, 211
Physician and dietitian (E), 183
Phytates, influence on magnesium balance, 373
Plasma turnover and $Co^{57}$-vitamin $B_{12}$ excretion, 156
Pregnancy, alterations in serum proteins during, 269
Pregnant women, copper metabolism in, 224
Preschool child protection program (P.P.P.), 63, 65
Protein
blends in treatment of kwashiorkor, 331
deficiency, response of rat liver and kidney enzymes to, 302
efficiency ratio method in evaluating protein-rich foods, 7
influence on magnesium balance, 374
intake in New Guinea, 13
malnutrition
see also Kwashiorkor
fish flour in preventing, 147
rich foods in calorie-protein malnutrition, 7
Proteins, serum, in pregnancy and lactation, 269
Pyridoxine-responsive anemia and megaloblastic erythropoiesis, 137

Rat liver
and kidney enzyme studies, 291, 302
and kidney enzymes and ammonia metabolism, 291
Rat tissue enzyme response to massive doses of nitrogenous substances, 291
Research, current, in diet therapy, 233

Serum
amino acids
in kwashiorkor, 313, 320
method for estimation of, 313, 320
antirachitic activity, determinants of, 98
cholesterol, total, correlation between dietary linoleate and, 193

fatty acid analysis in assessing dietary intake of linoleate in infants, 70
lipid analysis, estimation of linoleate intake from, 193
lipid levels in infants, 83
lipids in breast-fed infants and in infants fed evaporated milk, 83
proteins in pregnancy and lactation, 269
Sex difference in magnesium metabolism, 364
Skeletal development in New Guinea, 13
Skeletal maturation as index of mineral status in children, 91
Socioeconomic status, lack of effect on serum protein alterations, 269
Soybean oil emulsion, long-term tolerance study of, 28
Sweat, magnesium loss in, 345

Thiamine assay in man and animals, 197
Thyroidal uptake of radioactive iodine, 253
Triglyceride levels in obese women, 128
Tryptophan load test, recommendations for standardization of, 56
Turnip greens, nitrate content of, 52

Urinary excretion of iodine in goitrous and nongoitrous areas, 253

VioBin fish flour, nutritive value of, 147
Vitamin A, serum, in kwashiorkor, 331
Vitamin $B_{12}$–$Co^{57}$ excretion and plasma turnover, 156
Vitamin D, influence on magnesium balance, 375
Vitamin titers and hepatic disease, 1
Vitamins, lipid-soluble, in evaporated and human milk, 83

Weight and height of Bedouins, 37
Women, obese, lipid, cholesterol and triglyceride levels in, 128
